HEAVY POLICE GUARDS

SITUATION OF CHICAGO TEAM-STERS' STRIKE UNCHANGED.

Strikebound Firm Sent Out More Wagons Today-Effort for Settlement-Much Disorder.

CHICAGO, April 13.-Notwithstanding a continuance of the strike of teamsters and garment makers, Montgomery Ward & Co. today started out more wagons than on any previous day since the teamsters for the firm quit work. The police guards with the wagons were still heavy, but not so numerous as on previous days. Eighteen loaded trucks were sent out simultaneously from the firm's headquarters to the various railroad freight houses.

One more effort to reach a settlement be tween employers and employes was in progress today, three representatives of the Chicago Employers' Association arranged to meet a committee of eleven labor leaders at the Great Southern Hotel. The conference was arranged at the request of Presi-dent Cornelius P. Shea of the Teamsters

While the peace conference was in session, scenes of disorder prevailed on the streets. A caravan of three wagons bound for the Northwestern freight house was stopped at Kinzie street bridge. Heavy planks had been placed across the structure at right angles and laced into the trusses in such a manner that the planks ild not be removed except by sawing. While this was being done a wagon broke down near the bridge, evidently by a pre-arranged plan. A wheel came off and the harness broke. Around the wagon a large blockade formed, requiring half an hour to disentangle.

No Settlement Today.

The meeting resulted in no advancement toward peace. The union men declared they were ready to end the trouble if Ward & Company would reinstate the nineteen garment workers who struck. The employers' association, however, held that the garment workers' troubles have nothing to do with this controversy and insisted that the teamsters must carry out contracts with members of the association. Montgomery Ward & Company took the stand that the places of the nineteen garment workers who went out on strike have been filled and that the strikers cannot be

A cacerted movement to deliver goods to the houses of Montgomery Ward & Com-pany was planned for this afternoon. It was arranged that one hundred wagons belong-ing to members of the employers' associashould move in a cavalcade to the prescribed house in defiance of the striking drivers and their sympathizers.

THE RESCRIPT COMMISSION. Pleasure Over Story of Mirsky's Return

to Public Life. ST. PETERSBURG, April 13.-The report that former Minister of the Interior Prince Sviatopolk-Mirsky will return to public life as president of the rescript commission, although not officially confirmed, creates much satisfaction, as his sympathy with the principle of popular representation is

well known.

Numberless stories are being printed abroad, giving details of the character, composition and date of convocation of the coming parliament. The Associated Press can state that they are premature. Countless plans have been submitted, the one being a parliament composed from two sources, an upper house of 120 members. half of them to be nominated by the emperor and half to be elected by the nobility, and a lower house of 625 members, elected by various classes in all parts of Russia, including the non-Russian prov-

But the commission has not decided, even in principle, the nature or composition of the parliamentary body. It is the delay which has destroyed popular confidence in the sincerity of the government and which led the attorneys' congress to undertake an active, united propaganda by all the liberal professions in behalf of constitutionalism. The press has won a very considerable victory in the decision of the press commission to remove the censorship from foreign press telegrams. The regulations, however, will not go into effect until the revision of the press laws is complete.

AMERICAN HURT IN KOREA. Dr. Forsythe Attacked by Band of Korean Rebels.

VERSAILLES, Ky., April 13 .- Dr. Wiley H. Forsythe, formerly of Versailles, who is in Korea as a medical missionary, was recently attacked by a band of Korean rebels, according to advices received here, and horribly wounded.

Dr. Forsythe was called into the interior to attend a Korean gentleman who had been shot by robbers. He stopped for the night at the village of Mankao. During the night the house was broken into by the rebels and Forsythe, being un-armed, was at their mercy. His skull was fractured, one of his ears severed and he received other dangerous wounds. Forsythe went to Korea last year.

TO RETURN FROM MANILA.

Officers in the Medical Department Relieved From Duty.

The following named officers of the medical department have been relieved from duty in the Philippines division and ordered to San Francisco, Cal., and upon arrival report to the military secretary of the army for further orders:

Major Edward R. Morris, Major W. Fitzhugh Carter, Capt. Christopher C. Collins, Capt. Louis T. Hess, First Lieut. William R. Eastman, First Lieut. Edwin W. Rich, First Lieut. Raymond F. Metcalfe.

MR. GREENER'S MISTAKE. An Act That Caused Secretary Hay to Express Regret to Japan.

Mr. Richard T. Greener, who has just been replaced as United States commercial agent at Vladivostok, figured in an incident at Vladivostok some months ago which embarrassed this government and caused Secretary Hay to send a note officially expressing to Japan the regret of the government. Without asking leave of either the United States ambassador at St. Petersburg or any one else, it is alleged that Mr. Greener turned over the Japanese consular offices at Vladivostok, of which he was in charge at the time, to the Russian port admiral, who removed the furniture and used the building for the Red Cross Association. Japan later gave her consent to the use of the buildings for Red Cross purposes.

ESCAPED FROM ASYLUM.

Man Alleged to Be Former Patient Here Arrested.

Special Dispatch to The Evening Star. CUMBERLAND, Md., April 13.-Fred Smith, alleged to be Herbert Andrews, an escaped patient from an insane asylum in Washington D. C., has turned up here. Smith talked considerably on the streets last night and exhibited a copy of a Washington paper containing a story of his escape. Andrews was a trusty at the asylum, and escaped one night last week. When he arrived here he was clad in clothing much too large for him and wore a hat

about two sizes too small. When arrested he was armed with a recharge of carrying concealed weapons until the Washington authorities can be heard from. At the station house Smith grew insanely violent and paced up and down his cell like a mad man. Finally he set fire to some papers in his cell and increased the fury of the flames with his outer garments. A bucket or two of water extinguished the conflagration.

While the reply of President Castro to Minister Bowen's request for the arbitration of the asphalt dispute cannot. Secretary Taft says, be termed "insulting," it is not at all conciliatory. In substance, President Castro absolutely refuses to withdraw the New York and Bermudez Asphalt Company's case from the Venezuelan courts and submit it to arbitra-tion. He requests that the United States government define its attitude with respect to the sovereignty of Venezuela and the right of the Venezuelan courts to decide legal questions affecting that

country. No threat is made by Castro, and his reply contains nothing which can be con-strued as a personal insult to Minister Bowen. It is, however, positive and di rect in placing the question of further ac-tion squarely before the United States government.

USE OF QUOTATIONS.

Case of Chicago Board of Trade Against Hammond Elevator Company.

The case of the board of trade of Chipany was argued in the Supreme Court of the United States today, Henry S. Robbins appearing for the board of trade and J. J. Kern and J. A. Brown for the elevator company. The suit was originally brought by the board to prohibit the elevator company from appropriating its quotations, but today's argument turned largely upon the question of jurisdiction of the United States circuit court at Chicago.

THREE FRAUD ORDERS ISSUED. Drastic Action Taken by the Postal Authorities.

Fraud orders were today issued by the Post Office Department against the Homeowners' Corporation of New York and the Physicians' Protective Association and the United States Protective Association, both of Kansas City, Mo.

The first named has been conducted by J. Twilliger Smythe, who used the name to circumvent a fraud order some time since issued by the department to prevent the advertisement and sale through the mails of what are termed "wild lands" on Long Island.

In the second case the order is issued be cause the associations implicated have been using the mails for the collection of delin-quent debts, and violating in several ways

Chief Constructor Capps Reports Good

Progress in the Past Month. Rear Admiral Capps, chief of the bureau of construction and repair, reports good progress in the construction of warships in the past month. Of the battleships the Rhode Island and the Virginia are nearest completion, the former at 84 per cent and the latter at 83.74 per cent. The greatest progress made on the battleships was in the case of the Vermont, building by the Fore River Company, and the Kansas, building by the New York Company, each of which advanced 4.6 per cent. The Virginia was advanced nearly 3 per cent in the month. Last month's progress on the Louisiana, building at Newport News, was 2.36 per cent, making that vessel 71.90 per cent completed. This is 1.66 per cent nearer completion than is the battleshop Connecticut, which is being built at the New York navy yard, in competition with the Louis iana at the private yard. The rate of progress on the Connecticut last month, however, was 3.07 per cent, being .71 per cent more than the progress on the Louislana during the same time. The stage of work on the other battle-ships is stated as follows: Nebraska, 63.31

per cent; Georgia, 76.44; the New Jersey, 79.4; Vermont, 43.4; Kansas, 48.1; Minnesota, 61.76; Mississippi, 24.39; Idaho, 22.27, and New Hampshire, 1.5. The armored cruisers West Virginia and Maryland are completed and ready for commission. The condition of the other ar nored cruisers is stated as follows: California, 73.5; South Dakota, 71.3; Tennessee, 69.45; Washington, 70.2; North Carolina, 2.15; Montana, 2.01. Of the protected cruisers the St. Louis is 60.6 per cent completed; the Milwaukee, 69.8, and the Charleston,

The training ships Cumberland and Intrepid are practically completed, and the gunboats Dubuque and Paducah are also nearing completion. The training brig Boxer, built at the navy yard, Boston, is completed and ready for commission.

CONTROL OF THE CANAL ZONE. Question of Sale of Lottery Tickets Comes Up for Decision.

A case which may involve a conflict between the laws of the United States and those of the republic of Panama in the canal zone has been filed in the Supreme Court of the United States. The case is that of Oli Nifou, a Chinaman, who was placed under arrest last October by the zone authorities on the charge of selling tickets of the Panama Lottery Company, and subsequently sent to prison by the zone circuit court.

He has brought the case to the Supreme Court in a petition for a writ of habeas corpus, based on the ground that the lottery company was in existence before the treaty between the United States and Panma went into effect, and that the prosecu tion is an interference with vested rights.

The Department of Justice has intervene in the case to the extent of asking permission to file a brief in the case, which was today granted by the court. The request was presented by Solicitor General Hoyt, who said that the case had a very impor tant bearing upon the relations of the United States to the canal zone.

THAT ALLEGED CRAP GAME. Resumption of the Hearing Before Police Trial Board.

Policemen Walsh and Hoffman of the seventh precinct were on hand with their counsel, Attorney Wilton J. Lambert, when their trial on charges growing out of the alleged crap game in the Georgetown police station was resumed this afternoon. Attorney Robert E. Mattingly, who has guarded the interests of Policeman George Hilten, was also in attendance.

All through the trial of the case Attorney Lambert claimed that there had been nothing shown against his clients. As a matter of precaution, however, he raised the point that his clients were not on duty at the time they are alleged to have indulged in a game of "throwing the bones," and claimed that they would thereore come within the recent ruling of Corporation Counsel Duvall in the Lewis case. The beginning of the hearing was delayed on account of the absence of Mr. Sinclair, assistant corporation counsel, who was engaged in the Circuit Court.

Policeman Walsh, who was examined yesterday, was recalled to the stand and questioned with reference to his conver-sation with Policeman Short, He denied the testimony given by Policeman Short. Other witnesses were called, and the hearing was in progress when The Star's

MURDERED BY SAVAGES.

Sailors From the Benjamin Sewall

Killed in Formosa. Botel Tobago savages in Formosa caused the death of eight members of the crew of the American ship Benjamin Sewall and treated other members of the crew in a cruel manner when that ship was wrecked in Formosan waters some time ago. The story is told in official correspondence pub-

ished at the State Department today. When the Japanese government's attention was called to the incident it replied that the government of Formosa would "efficiently and strictly censure the savages and will warn them not to repeat such mis-

conduct again in the future."

Mr. Loomis, the acting secretary of state, promptly directed the United States minister at Tokyo to say to the Japanese government that "something more impressive than censure may suggest itself to the mind of that government." The Japanese government accordingly adopted punitive measures, but found great difficulty in executing them intelligently because they could not them intelligently because they could not make the natives understand for what they were being punished.

This government then suggested that several of the native chiefs known to have been implicated in the incident be impris-oned until some of the Formosan officials master their dialect and make them understand why they were being punished.

TO GO WITH RUSSIAN ARMY. Officers Selected to Replace Those Cap-

tured by the Japanese. On the recommendation of the general staff of the army, Secretary Taft has selected Brigadier General Thomas H. Barry, commanding the Department of the Gulf at Atlanta, Ga.; Col. John Van R. Hoff of the medical department at Fort Leavenworth, Kan., and Capt. Sydney A. Cloman 22d Infantry of the general staff, stationed in this city, for duty with the Russian army in Manchuria. Capt. Cloman will act

as aid to Gen. Barry. These officers will relieve Major M. M. Macomb of the Artillery Corps, Capt. William V. Judson, Corps of Engineers, and Col. Valery Havard of the Medical Depart-ment, from further duty with the Russian army. Major Macomb is now with the Russian forces in Manchuria. Col. Havard and Capt. Judson are on their way to the United States, having recently left Tokyo for San Francisco. The latter two officers were captured by the Japanese army on the retreat of the Russian forces Mukden. Col. Havard might easily have escaped with Major Macomb, but Capt. Judson was prostrated with sickness at the time, and Col. Havard remained with as an act of friendship to see that he was properly cared for.

As is usual in such cases, the Russian government has been asked to sanction the proposed changes and the necessary orders are withheld pending the receipt of a favorable response from St. Petersburg. of the reasons for the selection of Gen. Barry for the duty as a military observer with the Russian army is that Gen. Arthur MacArthur, U. S. A., is serving in a similar capacity with the Japanese army, and it was felt that the Russian government might not be satisfied with the assignment of an officer below the grade of brigadier general.

Teacher Won Her Own Case.

the briliant address she delivered to the jury in her own defense while acting as her own counsel that had much to do with the verdict. She had devoted the most careful preparation to her case, and her strong plea not only amazed lawyers who were present in the court room, but evidently greatly impressed the jury. After her deposition Miss Miller studied law for the sole purpose of carrying on her own case and clearing her name. SECOND ANNUAL BANQUET.

Y. M. C. A. Gym Men's Entertainment

Last Night. The second annual banquet of the Young Men's Christian Association was held last night in the association gymnasium with an attendance of nearly 100 members. It was the climax of the year's

work in the physical department and was

marked by its geniality and good fellow-Mr. J. W. Crawford, chairman of the physical department committee, presided at the banquet. The principal address was made by Rev. Dr. Teunis S. Hamlin, pastor of the Church of the Covenant, He told a number of humorous stories and then made remarks on "What Constitutes a Leader of Men?" While some men are given unquestioned leadership over others, all men should aim to become leaders of men, he said. He told of the qualities which inspire respect and confidence of others. E. B. Hay was introduced and amused the banqueters with his stories. Several members of the leader's class were presented with emblems for their

C. E. Beckett, assistant physical director, made a brief talk upon athletics, and Physical Director M. R. Rideout also spoke. During Mr. Rideout's speech he presented Secretary Lyman L. Pierce with a big roll of money, nearly a foot in diameter, to pay for the new Y. M. C. A. building. The bills proved, however, to be stage money. At this time four young men carried in, seemingly with much effort, a platform on which was a paste-board building, the Y. M. C. A. home. Mr. Pierce accepted it with a few gracious re.

BODY NOT CLAIMED.

Remains of Italian Connected With Virginia Tragedy.

No one has appeared at the morgue to claim the body of the Italian who received fatal wounds last week at Lorton, Va., where he killed Deputy Sheriff Malcolm, as published in The Star at the time. The Italian authorities are conducting an investigation into the affair for the purpose of determining under what circumstances he was killed. Reports of the affair indicate that he killed himself, but this version of the shooting is questioned by the Italian representatives here, it is said, and it is for the purpose of settling this question that the investigation is being conducted. Should the Italian representatives be convinced that the man was shot and killed by those who attempted to arrest him, it is stated, an effort may be made to have the state of Virginia pay damages, irrespective of the crimes the foreigner is alleged to have committed against the state.

Today in the Police Court the case was

the attention of Judge Scott by Assistant United States Attorney Given and a nolle pros. was entered. The Italian was charged under the name of Gio Gillatine with having assaulted Salvadore Demma. His counsel, Attorney Campbell Carrington, had his bondsman identify the body at the \$85,000 was subscribed by May 1. Where morgue. Sergeant Lombardy also identified the body as being that of Mr. Carrington's client. Nobody seems to know the exact name of the deceased. His name has been given as Leanto, La Tano and Gillatine. At the time he was released on bond to appear in the Police Court for trial by jury he told his bondsman that it was his intention to go to Philadelphia, where he had been promised employment. He went to Virginia instead, and, it is believed, had no intention of returning here for trial. His body is at the morgue, and although interest enough has been taken in the case to investigate his death, nobody has made a suggestion about the interment of the body. Unless some arrangement is made before tomorrow morning the body will be interred in potter's field.

cago Today. CHICAGO, April 13.-With hands outstretched in greeting. William Jennings Bryand and Mayor Tom Johnson of Cleveland called together today upon the newly elected Mayor of Chicago, Edward F. "We want to shake hands with the western conqueror," said Colonel Bryan, "And I want to return the greeting to the idol of his party." responded Mayor Dunne, who then stretched his hand to grasp that of the municipal ownership mayor of Cleve-

Then followed a half hour's discussion of Chicago's problem. "The municipal owner-ship election in Chicago means more than any man can tell," declared Colonel Bryan, smiling broadly. "I am here, like my friend, Tom Johnson, to participate in to-night's Jefferson banquet; but I am here for more than that—to greet the greatest for more than that-to greet the greatest mayor in the west. Mayor Dunne has taken the lead over all other mayors—all lord mayors in the world."

Another Prisoner Escapes.

Another prisoner escaped yesterday from the work house, and in consequence the Commissioners have discharged E. M. Arnold, a carpenter, whom they held responsible for the escape. The convict, Henry Burke, was working in a gang of which the carpenter had charge. Superintendent Zinkhan reported that the man was seen changing his clothes, after which he ran across the commons and escaped, notwithstanding an all-day search participated in by Mr. Zinkhan and several officers. The discharge of the carpenter is in accordance with a new rule adopted by the Commissioners, at the suggestion of Mr. Macfarland, to discharge an employe if he permits a convict to escape. The Commissioners hope-by this method to reduce the number of ascapes materially.

umber of escapes materially. Dismissed the Case.

When the case of Alfred T. Moore, an employe of the patent office, who was harged with failure to support his minor children, and which was continued over from yesterday in order that the children might be procured to testify, was called in Police Court before Judge Scott this morning, the mother could produce only one of the children. He testified that when he left his father to go to his mother, his father owed him some money which he would not pay him. The father admitted on the stand that this was so, but he stated, that he told the boy that he would pay it as soon as he was in a position to do so. The court decided that as long as the children followed their mother away from the family home that the father could not be bound to support them unless they returned to him, and the case was dismissed.

Secretary Metcalf at Ellis Island. Victor H. Metcalf, Secretary of Commerce and Labor, accompanied by Commissioner General of Immigration Watchorn, took a long look at Ellis Island, New York, yesterday and was introduced personally to every inspector. He shook 500 hands and said something pleasant to every man. Sec-retary Metcalf said after the inspection that he was impressed with the way things were done at Eilis Island; that the advisawere done at Emis Island, that the advisability of having a bureau of immigration distribution was being considered by his department, and that it intended to facilitate sending immigrants to their destinations by immediately getting increased transportation accommodations.
